## SUMMARY

An energetic and passionate college student motivated to start work in the Web or Software Engineering field for continued growth in my career. Aiming to use the knowledge that I have acquired from my coursework as well as my own self-study to satisfy my position at your organization and am also willing to learn more from this opportunity.

## WORK EXPERIENCE

**Northrop Grumman Innovation Systems, Ronkonkoma** - *Software Engineer Intern*

January 2021 - May 2021

- Developed an automated solution that controls instrumentation loads for critical hypersonic tests which no longer need to be interrupted in **C#** communicating through Telnet protocol
- Built a checklist application that is utilized by engineers for crucial test preparation in **C#** with the graphical interface of WinForms
- Created new database system documentation for facility's servers using Visio

**ConquerMoney** - *Full Stack Developer Intern*

June 2020 - August 2020

- Created a financial application that has features such as a credit card rewards analyzer and spending decision making with data used from Plaid API
- The app uses **React.js** for the front-end with the service hosted on **Microsoft Azure**, and **Spring** for REST backend with CRUD operations on Microsoft **SQL Server** database
- User information, such as username, email, password, transactions were all encrypted before storing on the database

**Patchogue-Medford High School, Medford** - *Technology Department Intern*

January 2018 - June 2018

- Maintained clear office space, organize files, troubleshoot computer and printer hardware, software installation, disk imaging
- Investigated and resolved phone and ticketing support

## EDUCATION

**St. Joseph's College, Brooklyn** - *B.S. in Computer Science & Mathematics*

September 2018 - May 2022

- Coursework in Algorithms & Data Structures, Database, Operating Systems, Networking

## SKILLS

- Languages: HTML/CSS, JavaScript, Java, C#, SQL
- Frameworks/Databases: React, Express, Node, GraphQL, Rest, Mongo, Oracle, Microsoft SQL
- Developer Tools: Visual Studio, Visual Studio Code, IntelliJ IDEA, Git, GitHub
- Adaptability, teamwork, interpersonal communication skills
